# Outline Description

## **Working Title: “*Coordination of research into safe production and use of nanomaterials - Nanocosafe*”**

- NMP-2007-1.3-5 Coordination in studying the environmental, safety and health impact of engineered nanoparticles and nanotechnology based materials and products
- Coordination and support actions aiming at coordinating research activities
- To include:
  - Test strategies
  - Quick screening methods
  - Risk assessment tools and methodologies

# Aims

- Coordinate future research activities into the various impacts of nanotechnology
- The properties of engineered nanoparticles
- Production processes
- Applications of nanoparticles in consumer and industrial products.
- Provide support to
  - Regulatory requirements needed for the future
  - Industrial decision making
  - EU research and policies

# Summary

- Submission deadline 5<sup>th</sup> June 2007
- Indicative budget in 2007 15M€
- Total of 9 topics in call for Coordination and Support Actions
- Single stage evaluation procedure
- Coordinator C-Tech Innovation Ltd
- 5 or 6 partners
